

SiCFM-M4

Specifications - SiCFM-M4

Membrane material	Silicon Carbide
Dimensions	W593xL802xH995mm (160mm extra height pr. module)
Active membrane surface	29 m ²
Aerator type	Self-closing EPDM/PU
Permeate and hose connections	G 1¼
Weight dry	178 kg
Maximum flow	30 m ³ /hour
Maximum suction pressure (outside-in)	-700 mbar
Maximum back pressure (inside-out)	3 bar
Operating temperature	5-80° C
Cleaning methods	Backwash/Airpressure/High pressure jet/Chemical cleaning
Fields of application	Drinking water/Waste water
